A study of 10 students in a psychology class. Each row is one student. (Made-up data)

Participant ID	Age	Year in School	Study Method	Study Minutes	Phone Nearby	Test Anxiety	Confidence 1 to 10	Immediate Score (%)	One Week Score (%)
P01	19	1	Reread	45	Yes	Medium	8	78	52
P02	20	2	Practice Test	40	No	Low	6	74	70
P03	18	1	Flashcards	50	No	Low	7	80	68
P04	21	3	Reread	60	Yes	High	9	82	49
P05	19	1	Practice Test	45	Yes	Medium	6	70	58
P06	22	4	Flashcards	40	No	Medium	7	76	66
P07	20	2	Reread	30	No	Low	8	72	55
P08	18	1	Practice Test	50	No	High	5	69	64
P09	21	3	Flashcards	55	Yes	Medium	7	79	60
P10	19	1	Practice Test	35	No	Low	6	71	69

Quiz 1

Dataset 3 (psychology): 10 students tried one study method, then took a quiz right away and again a week later.

1. **Write a problem statement. One or two sentences.**
2. **Write two questions this data could answer.**
3. **Write a hypothesis for each: "I think … because …"**
