Use the charts and the numbers below.

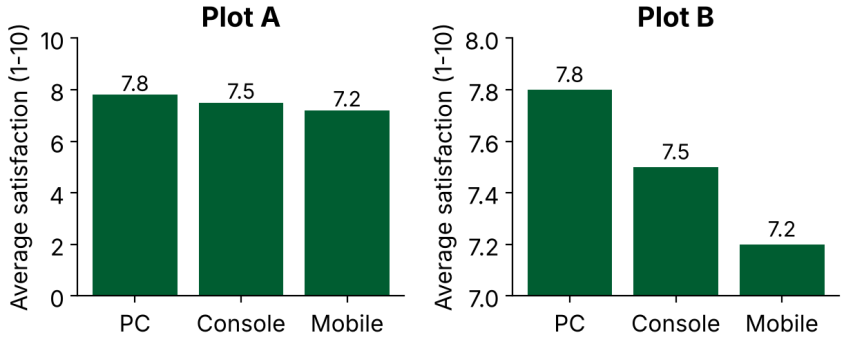

Quiz 4

Exploratory data analysis: describe the data and spot what looks wrong.

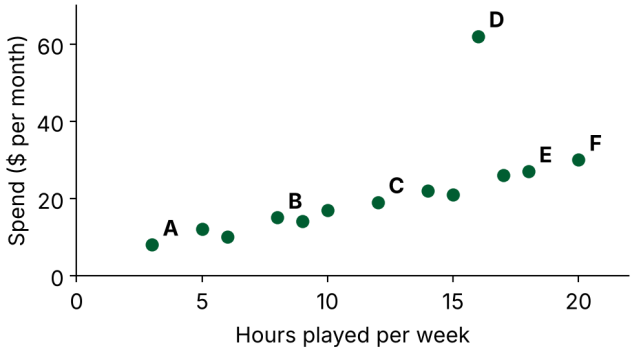

1. **Look at the histogram. What type of distribution is this? Give one reason from the shape.**

2. **Two bar charts show the same data. Which plot (A or B) is the better one? Give one reason.**

3. **Look at the scatter plot. Which point (A to F) is the outlier? Give one reason.**

4. **Hours played in one week by 12 players: 4, 7, 5, 9, 7, 3, 7, 6, 5, 8, 7, 2. Find the mode.**
